### **GoEngineer Earns Honors at SolidWorks World 2012**

*-- 27 individual and company awards reflect GoEngineer's focus on assuring customer success --*

**Salt Lake City, UT, March 20, 2012** – GoEngineer®, Inc., was recognized with dozens of individual and company awards at the recent SolidWorks World 2012, in San Diego, California.

A value added reseller (VAR) of Dassault Systèmes SolidWorks Corp. 3D product design software and other leading software for product design and development customers, GoEngineer earned a total of 27 individual and company awards—including numerous #1 in category awards.

GoEngineer's myriad successes are the result of the company's laser-like focus on assuring customer success, according to GoEngineer founder and president Ken Coburn. "To make sure our customers are the real winners we combine world-class software like SolidWorks, supportive training programs, deep design-engineering domain expertise and industry perspective, and our Jumpstart<sup>SM</sup> rapid implementation services."

#### **Awards and Recognition**

GoEngineer won recognition in these areas.

- #1 VAR Worldwide Simulation Sales
- #1 VAR Worldwide Enterprise PDM Sales
- #1 VAR North American 3DVIA Composer Sales
- #1 100% Overall Performance Education North American VARS
- 100% Weighted Average Performance North American VARS
- World-Wide VARS Earning Presidents' Club Recognition

In addition to the company's awards, 21 GoEngineer team members won recognition for their individual achievements in attaining sales goals, technical excellence certification or both.

"We congratulate the team at GoEngineer on all of their recognition," said Ken Clayton, vice president of worldwide sales at Dassault Systèmes SolidWorks Corp. "The number of top honors demonstrates the benefits of a deeply experienced and certified implementation team. Their JumpStart implementation methodology has provided a smooth transition and rapid value realization for customers who upgrade their engineering process to SolidWorks 3D design solutions."

#### **More Than Just Sales, A Focus on Solutions**

GoEngineer's Jumpstart service enables customers to adopt beneficial new technologies quickly and effectively, aided by award-winning industry experts. The company's domain expertise provides customers with support from initial product concept through end-of-life processes, making GoEngineer a leading and innovative SolidWorks Solutions provider, says Coburn.

"Delivering great products combined with business best practices to our customers has provided us a solid foundation from which we have produced consistently strong results over the years," adds Coburn. "We are pleased to be recognized for the value we've brought to our customers and our industry."
